

New AI decision-support method

1

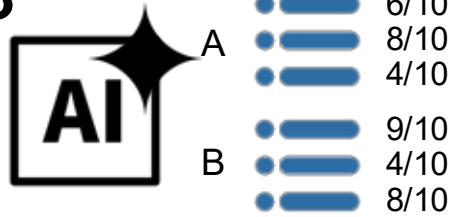

AI generates evaluation axes

2

humans assign weights to these axes

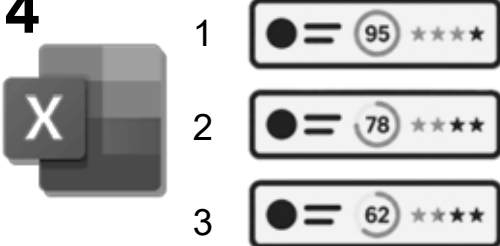

3

AI scores to each option

A	6/10
A	8/10
A	4/10
B	9/10
B	4/10
B	8/10

4

calculates the final ranking

1	95	★★★★
2	78	★★★★
3	62	★★★★

➔  Humans make the final decision.

? how well this approach can maintain human control?
